teamflow

Artificial Intelligence Engineer

Teamflow GmbH | Location: **Ho Chi Minh City**

Ready to take on meaningful responsibilities from day one? Teamflow GmbH, a dynamic company from Germany with a start-up mindset, highly motivated colleagues, and a strong customer base, is looking for you! Join our team in Saigon and grow with us.

We are looking for a salaried full-time Artificial Intelligence Engineer for our Incubator Team (teamflow.de/incubator) in Ho Chi Minh City (D1) to join us as soon as possible.

Join Our Team as a Artificial Intelligence Engineer!

WHAT WOULD BE YOUR JOB AT TEAMFLOW?

- Are you passionate about developing scalable, efficient business solutions using AI? Do you thrive in a collaborative environment where innovation and problem-solving are at the heart of what we do?
- We are looking for a talented Artificial Intelligence Engineer to join our Incubator team. In this role, you'll have the opportunity to design, develop, and deploy scalable AI systems for use cases such as fraud detection, recommendation engines, etc.
- Your expertise will directly contribute to creating robust, user-friendly software that drives engagement and results. and growth.
- If you enjoy tackling technical challenges, writing clean code, and working with a team that values creativity and precision, we'd love to hear from you. This is your chance to grow your skills, make an impact, and be part of a company that invests in its people and technology.

WE GET EXCITED ABOUT YOU, IF YOU ...

- You have experience in AI and ML, ideally with Keras, PyTorch, and/or TensorFlow.
- You are proficient in Python and/or Java.
- Are hard-driving and know how to deliver working software quickly and in high quality.
- Are highly organized, diligent, and detail-oriented. You are used to working quickly and reliably, even when giving sub-par briefings.
- Are a self-starter, dependable, and committed to high quality.
- Ensure code quality and participate in code reviews, following CI/CD practices for continuous integration and deployment. Test automation and clean code are the bare minimum for you.
- Are a team player and want to develop successful products with your cross-functional agile team.
- Have very good knowledge of spoken and written English, as you will be working in an English-speaking team
- Are legally allowed to work in Vietnam and willing and able to work in our office. This is not a remote job.

WHY YOU'LL LOVE WORKING FOR US:

- **Impact from Day One:** Few roles offer this level of responsibility and personal growth so early.
- **Collaborative Culture:** Enjoy a professional, collegial environment with flat hierarchies where 'team' is more than just a word.
- **Investment in You:** We prioritize your training and long-term development.
- **Competitive Compensation:** Earn a salary of **25M VND** gross per month.
- **International Exposure:** Work on global projects from our central Saigon office.
- **Modern Tools:** Access top-tier equipment, including a MacBook Pro and iPhone Pro.

READY TO JOIN US?

- **Chinese speed. German quality. American marketing. Japanese management.**
- If this sounds like a culture you would thrive in, we'd love to hear from you!
- Please send your CV in PDF format, your potential starting date and your annual salary expectation to **jobs@teamflow.de.**
