teamflow

Python Developer

Teamflow GmbH | Location: **Berlin**

Ready to take on meaningful responsibilities from day one? Teamflow GmbH, a dynamic company from Germany with a start-up mindset, highly motivated colleagues, and a strong customer base, is looking for you! Join our team in Saigon and grow with us.

We are looking for a salaried full-time Python Developer (m/f/d) to work with our customers as well as with our Saigon, Vietnam-based Incubator Team.

Join Our Team as a Python Developer!

WHAT WOULD BE YOUR JOB AT TEAMFLOW?

- Are you passionate about developing scalable, efficient business solutions using Python? Do you thrive in a dynamic environment where innovation and problem-solving drive both customer success and internal growth?
- We are looking for a talented Python Developer to join our team. In this role, you'll collaborate closely with customer development teams to design, develop, and customize business applications, integrate third-party solutions, and optimize workflows that deliver real value to our clients. You'll also work alongside our Incubator Team, helping to build and refine cutting-edge tools and products from the ground up.
- Your expertise in Python will directly contribute to creating robust, user-friendly software that empowers our customers and fuels our own innovation. Whether you're solving complex technical challenges, writing clean and maintainable code, or brainstorming creative solutions with cross-functional teams, your work will have a tangible impact on both our clients and our company's future.
- If you enjoy tackling technical challenges, writing clean code, and working with a team that values creativity and precision, we'd love to hear from you. This is your chance to grow your skills, make an impact, and be part of a company that invests in its people and technology.

WE GET EXCITED ABOUT YOU, IF YOU ...

- Are an experienced Python developer.
- Are hard-driving and know how to deliver working software quickly and in high quality.
- Are highly organized, diligent, and detail-oriented. You are used to working quickly and reliably, even when giving sub-par briefings.
- Are a self-starter, dependable, and committed to high quality.
- Ensure code quality and participate in code reviews, following CI/CD practices for continuous integration and deployment. Test automation and clean code are the bare minimum for you.
- Are a team player and want to develop successful products with your cross-functional agile team.
- Have very good knowledge of spoken and written English as well as German.
- Are legally allowed to work in Germany and willing and able to work in our office in Kreuzberg. This is not a remote job.

WHY YOU'LL LOVE WORKING FOR US:

- **Impact from Day One:** Few roles offer this level of responsibility and personal growth so early.
- **Collaborative Culture:** Enjoy a professional, collegial environment with flat hierarchies where 'team' is more than just a word.
- **Investment in You:** We prioritize your training and long-term development.
- **Competitive Compensation:** Earn a salary of **50.000€** gross per month.
- **International Exposure:** Work on global projects from our central Berlin office.
- **Modern Tools:** Access top-tier equipment, including a MacBook Pro and iPhone Pro.

READY TO JOIN US?

- **Chinese speed. German quality. American marketing. Japanese management.**
- If this sounds like a culture you would thrive in, we'd love to hear from you!
- Please send your CV in PDF format, your potential starting date and your annual salary expectation to **jobs@teamflow.de.**
